

Name:

Technology/Photography Background

For each question circle your knowledge of the subject on a scale of 1 to 4:

1 = You have never worked with the technology nor have knowledge on the subject

2 = You have worked with the technology before or have a limited knowledge of the subject (will need help)

3 = You have worked with the technology before and feel comfortable working with it alone

4 = You have worked extensively with the technology and could confidently assist others

a) I have worked with point and shoot cameras before.

1 2 3 4

b) I know how to transfer files from cameras to computers.

1 2 3 4

c) I have used basic photo editing software before (i.e. simple composition and cropping adjustments)

1 2 3 4

d) I have used advanced photo editing software before (i.e. working in layers - Photoshop etc)

1 2 3 4

Short responses

a) What do you hope to learn/achieve during your photography unit?

b) What kind of photographs do you enjoy taking? Please explain why!

During this unit you will be learning many technical skills, working with technology, leaving the classroom/school grounds, and working/collaborating with students. It is very important that you use your time wisely and pay attention to the instructions to make things successful. Therefore very little lead way will be given to students or groups that cannot follow instructions or demonstrate respectful classroom behavior while taking part in the activities. With this in mind please list:

Three people that will help me be successful in this photography unit.

-
-
-

Two people that may cause me to get distracted or lose focus. They might make me less successful in the photography unit.

-
-

Please circle the answer.

Will you be bringing in your own camera? Yes No

 If yes, are you comfortable sharing it with someone else in your group? Yes No

Do you have a computer at home that you can use? Yes No

About how many photos do you take a week?

0 a few 10+ 50+ 100+
